## Request for Certification of Private Student Loan

**Seminole Community College**

---

**Students Name (print):**

Last name \_\_\_\_\_ First name \_\_\_\_\_ M.I. \_\_\_\_\_

I am submitting a request for certification of a Private Student Loan by Seminole Community College. By requesting this loan:

1. I am aware and understand the difference in cost to borrow between Federal Student Loans and the private loan I am requesting. I acknowledge that the Federal Stafford Loan provides a lower interest rate and the repayment options are more flexible than the private loan that I am requesting.
2. I understand that a requested amount cannot exceed the published cost of attendance for Seminole Community College, minus any financial aid resources available to me. The published cost of attendance is available through the Seminole Community College Web site.
3. Any request for a tuition deferment based on this loan will require a semester specific manual deferment to be signed. This form is available only through Student Financial Resources. A deferment must be requested, completed and approved every semester. I further understand that a tuition deferment request will not allow any bookstore charges against this Private Student Loan. For approval of any tuition deferment, students must provide a pre-approval notification in writing from the lender before the deferment is approved.
4. I further understand and have communicated to my requested lender that Seminole Community College will not provide endorsement to any checks made co-payable to both myself and Seminole Community. My lender has agreed that any paper check will be made singly payable to myself. Any co-payable checks will be returned to the lender.

Therefore, I am requesting Seminole Community College certify my private student loan with:

(Lender Name ): \_\_\_\_\_

in the amount of: \_\_\_\_\_

for the following time period: \_\_\_\_\_.
