How To Use GroupWise WebAccess with Internet Explorer 7 and Windows VISTA

If you are using Windows VISTA and IE7 at home, you will need to make the following change to IE7 in order to access GroupWise.

√ Open IE 7

√ Click on Tools
   Internet Options:

√ When the Internet Options dialog box appears, click the “Advanced” tab.
√ Use the scroll bar on the right to scroll to “Use SSL 2.0”
√ Place a check mark next in the box next to “Use SSL 2.0”.
√ Click apply, then ok.

You should now be able to log into GroupWise Access
